

The silent sound of Quality

The customer in focus

Antiphon AB shall in close cooperation with all parties concerned such as customers, suppliers, employees and public authorities fulfil their needs regarding quality and environment.

With continuous improvements, in-service training and all employees awareness of existing specifications of requirements, we shall produce and deliver acoustic products with no faults in right time. We shall also work to minimize our influence on the environment of land, water and air through improvement targets and action plans to minimize the risk of accidents.
